Who We Are

Tripsolver was founded in 2015 by an experienced and fully knowledgeable technology architect, CEO Mahesh Jaddangi. His vast experience and his desire to innovate technology to allow diminish gaps between traditional travel models and online business, allowed him to create an excellent working environment operated by professionals around the world. Not only is this group composed by savvy technology oriented specialists, but also by Travel Industry experts with a strong background in a GDS platform, Customer Service and travel domain. Our headquarters is located in Dallas (Texas USA) and our 2 offices in Hyderabad (India) and in Uruguay (South America)

We provide a set of solutions to help run your business and manage your booking transactions in a more efficient manner.

Features: We can build multiple platforms and customize them to fit your needs.
With our solutions you can offer Flights, Hotels, Cruises, Vacations and much more to B2C (customer facing), B2B (business) and Internal Booking Engines (B2E).
All these applications support unlimited multi users with multiple access location from across the globe.
All our solutions are 100% web based with highly secured cloud based technology. Partnered with Microsoft Azure, we have 24/7 access in any part of the world.

Why Tripsolver!

Tripsolver delivers strong products based on loyalty, security, the latest technology, innovation and dedication for Customer Service.

We are passionate about Travel Technology, we deliver what we promise and care about our customers' requirements.

We offer a unique and exclusive tool, identity manager. And we have a distinguishing service in which our interest is to deliver dedicated support. Travel consultancy and advice is key to become strategic technology partners.

As a Global Technology Company with 40+ clients, and with innovative technology and continuous focus on growth and development, we look to reach higher levels and acquire new customers while maintaining a personalized service and keeping your business as our priority. We care for your business and want to help you grow. Our goal is to help your company scale up.
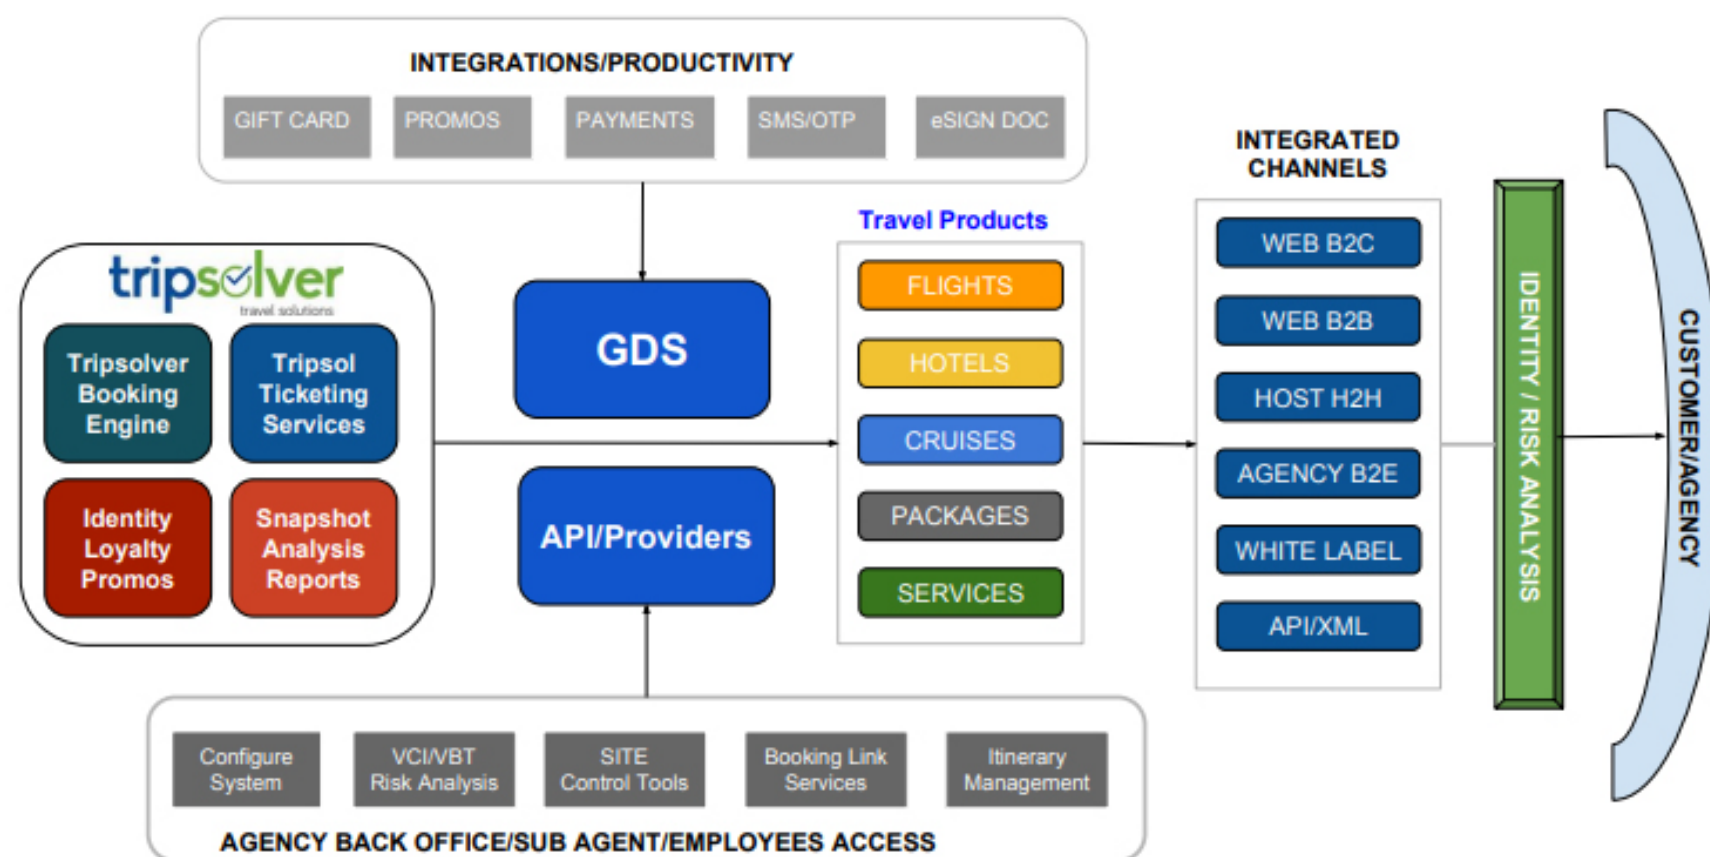

With Tripsolver you can achieve:

- Implement next zen technology and software solutions while taking your company to the next level.

- Scale fast with better decisions and data insights.

- Improve efficiency: maximize your profits and sales with higher return on investment.

- Automate many processes improving productivity and minimizing resources.

- Expand your reach with B2B and Host integrations.

- Have customized applications

- Count on technical support 24/7 365 days and a team of well-seasoned Travel technology Professionals that will help you reach your business goals.

- Receive a simple and fast implementation process, specializing in flexibility rather than bulk pricing and clotted systems
